

NADUN SAWUMYA LAKSHAN ALAHAPPERUMA

Software Engineering Undergraduate | Full-Stack Developer

Tissamaharama, Sri Lanka • +94 76 488 2674 • nadunsawumya88@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on full-stack development experience and a current Software Engineer internship. Skilled in building, testing, debugging, integrating, and deploying web applications using React.js, Next.js, Java Spring Boot, NestJS, PHP, MySQL, JavaScript, HTML, and CSS. Seeking Software Engineer Intern, Full-Stack Developer, or Front-End Developer opportunities.

TECHNICAL SKILLS

Languages	Java, PHP, JavaScript, SQL, HTML, CSS
Frontend	React.js, Next.js, HTML5, CSS3, JavaScript
Backend	Java Spring Boot, Node.js, NestJS, PHP, REST APIs
Database	MySQL
Tools & VCS	Git, GitHub, Bitbucket
Deployment	Netlify, DailyRazor

PROFESSIONAL EXPERIENCE

Software Engineer Intern — NMA Software

Nov 2025 – Present

New York, NY, USA (Remote)

- Develop and maintain frontend and backend components for production web applications.
- Build responsive interfaces and integrate frontend applications with backend services and APIs.
- Test features, diagnose software issues, and fix bugs before and after deployment.
- Use Git and Bitbucket for source code management and collaborative development.
- Deploy web applications using Netlify and DailyRazor across development, testing, debugging, and release.

PROJECTS

NMA Freight | *React.js, Java Spring Boot*

- Production-level freight web application; contributed to frontend and backend development, API integration, testing, debugging, and deployment.

TileVista — Tile & Bathware Showroom System | *Next.js, React, Three.js, NestJS, Node.js, MySQL*

- Final-year project featuring an interactive 3D Bathroom Designer that lets users configure room dimensions, apply tiles, and position bathware and accessories.
- Implemented product and package visualization features to support the design workflow.

VetiPlus — Veterinary Management Platform | *PHP, MySQL, JavaScript, HTML, CSS*

- Full-stack veterinary platform built with object-oriented PHP, covering pet profiles, vet and grooming bookings, and online payments.
- Added medical records, certificates, event management, community discussions, notifications, and role-based dashboards.

NMA Software Company Website | *HTML, CSS, Java Spring Boot*

- Developed a company website with an HTML/CSS frontend and a Java Spring Boot backend.
